

Special Adventure for 2

a wilderness husky adventure
6 days / 5 nights / 4 days with dogs

Enjoy the Finnish Taiga Winter together – just the 2 of you (plus your guide). Enjoy the cosy atmosphere and kind staff of your hotel and then learn how to drive your own arctic dog team right out of your hotel. You “mush” together with your own husky guide to a wilderness log cabin located by a lakeshore with no close neighbours, just the peacefulness of nature shared with only you, the dogs and your guides. This tour takes you to the beautiful taiga trail with only the sounds of the dogs breathing and their paws hitting the snow.

Spend 3 nights at wilderness cabin Tervahovi, warming up the sauna, taking care of the dogs and enjoying dinner made out of local ingredients. A winters evening only for you two together with the guide(s) and the dogs.

Day 1:

Arrive at Kajaani airport, transfer to your hotel - approximately 1 hour. Dinner in the restaurant, overnight accommodation in double room or suite (shown above).

Day 2:

After breakfast you will be provided with warm winter clothing which will make the tour pleasant even in extreme cold temperatures. Then it is time to head out with the dogs. No transfers needed as the guides and the dogs will pick you up straight from the hotel, leading you in to the wilderness along the trail starting from the hotel lakeside. On the way to the cabin lunch will be enjoyed in a tepee-hut by the open fire. In the evening, after arriving to the cabin it is time to take

care of the dogs, enjoy the traditional wood-heated sauna and a tasty dinner and chill out enjoying the memories of your first day.

Day 3:

After breakfast as it is only you two with the guides and the dogs, there is no need to worry about strict timetables. The schedule will be done according to your own wishes. When you feel so, it is time to head out for another day with the lovely huskies. Lunch will be enjoyed in the forest by the open fire. Tired muscles will be healed in the warmth

of sauna, as every evening. Delicious dinner in the cabin where you can reflect over another great day out.

Day 4: Today will be a day tour but this time on a bit different trails. On earlier days the trails have been public ones where other people can sometimes be seen skiing or driving a snowmobile. This day's trail is only prepared with snowshoes and the dogs. It may not be as solid and fast as the ones before, but you will get a chance to experience what dog sledding has traditionally been, before the time of snowmobiles. And what's the best, the dogs enjoy this challenge too! In the afternoon possibility to do some ice-fishing. If something gets caught, it can be prepared for the meal.

Day 5: This morning it is time to say goodbye to the cabin as you head back to your hotel. The dogs will lead you back to the very same point where you started from three days ago. Relaxing last night in the hotel with sauna and good food prepares you for the journey back home.

Day 6: After breakfast, transfer to Kajaani airport.

2012 Dates: 1st February to 31st March

Cost: £1435 per person in double room at hotel
£1535 per person in a suite for 2 at hotel

Group size: 2
